How we count

We compare each new copy of the Home Office register of licensed sponsors with the copy before it. A sponsor counts in the month of the first copy that adds or drops it.

A new listing means the employer holds a sponsor licence. It does not show that the employer is hiring, or that a job meets the visa rules.

A sponsor with more than one visa route counts once under each route, so the route counts can add up to more than the total.

Sectors come from the first SIC code on each employer's Companies House record, grouped by SIC 2007 division. 788 of the 907 sponsors have a SIC code.

About this report
