How we count

We compare each new copy of the Home Office register of licensed sponsors with the copy before it. A sponsor counts in the month of the first copy that adds or drops it.

The register does not say why a sponsor left. A licence can be revoked by the Home Office, surrendered by the employer or left to expire. The register does not list suspended licences, so this report has none.

A sponsor that left only because it changed its name, and is listed again under the new name, counts as renamed. Renamed sponsors are not in the list.

A sponsor with more than one visa route counts once under each route, so the route counts can add up to more than the total.

Sectors come from the first SIC code on each employer's Companies House record, grouped by SIC 2007 division. 648 of the 735 sponsors have a SIC code.
